<i>ABOUT THE CONTRIBUTORS</i>	xv
Introduction	1
<i>Margaret Rustin & Michael Rustin</i>	

I

Mainly theory and clinical method

1	A single case of psychoanalytic infant observation and what it reveals about loss and recovery in infancy	31
	<i>Wendy Shallcross</i>	
2	Finding a place of one's own: a grounded theory approach to reviewing the developmental impact of child psychotherapy with a looked-after 2-year-old child	63
	<i>Louise Allnut</i>	

3	The desert, the jungle, and the garden: some aspects of autistic functioning and language development <i>Carlos Tamm</i>	84
4	Curiouser and curiouser: researching the K link in psychoanalytic therapy <i>Emily Ryan</i>	121
5	A comparison of process notes and audio recordings in psychoanalytic psychotherapy <i>Miriam Creaser</i>	152

II

Mainly practice: contributions to service development

6	What do babies know? An exploration of the experience of Bangladeshi mothers and their infants <i>Ferelyth Watt</i>	175
7	Breaks and sibling figures in child psychotherapy <i>Liselotte Grünbaum</i>	198
8	What can I tell you? An exploration of child psychotherapy assessment using grounded theory <i>Marie Bradley</i>	222
9	Focusing on the carer of the traumatized child: on the benefits of psychoanalytic short-term parent work <i>Kristine Tiltina</i>	238
10	An exploration into the impact of a child psychotherapist's pregnancy on her clinical work <i>Rajni Sharma</i>	269
11	Clinical research and practice with babies and young children in care <i>Jenifer Wakelyn</i>	293
