

Contents

1 Introduction	1
1.1 Water Resources and Water Problems in China	1
1.2 Climate Change: a Context, a Threat and an Opportunity	6
1.3 When Water Meets Climate Change.	10
References	16
2 Developing Sustainable Water Legal Framework in China: Prepare for Adaptation	21
2.1 A Theoretical Introduction of the Integrated Water Resources Management (IWRM)	22
2.2 China's Legal Framework on the IWRM	28
2.2.1 Water Laws at the National Level	28
2.2.2 Specific Regulations on River Basin Management	32
2.3 Institutional Settings of the IWRM.	35
2.3.1 Vertical Institutional Settings	35
2.3.2 Horizontal Institutional Settings.	40
2.4 Practices of the IWRM in China	44
2.4.1 The Status of IWRM in China	44
2.4.2 The Implementation of the IWRM in China	46
2.4.3 The Transition to a Resource-Oriented Mentality.	50
2.4.4 The Transition to Water Demand Management	52
2.5 Conclusions and Recommendations	57
2.5.1 Conclusions	57
2.5.2 Recommendations	59
References	63
3 The Legal Framework of China's Water-Related Climate Change Adaptation	69
3.1 Establishing an Adaptation-Oriented Framework for Water	70
3.1.1 Understanding the Necessity of Adaptation.	70
3.1.2 Adaptation Versus Mitigation as a Legal Problem	72

3.2	China's Legal Responses to Climate Change Adaptation.	76
3.2.1	Adaptation in the Context of Policies and Plans	76
3.2.2	Adaptation in the Context of a Legal Framework	78
3.2.3	Institutional Settings of Climate Change Adaptation.	86
3.2.4	Adaptation Responses of China's Water Management	90
3.3	An Assessment—Ambitious Progress or Conservative Steps?	93
3.3.1	Low Awareness of Adaptation	94
3.3.2	Over-Reliance on Engineering and Technological Approaches.	95
3.3.3	Marginal Role of Environmental Authorities in Adaptation	97
3.3.4	Lack of Institutionalized Governance at the Local Level	99
3.4	Conclusion	100
	References	101
4	Mainstreaming Climate Change Adaptation in China's Integrated Water Resources Management (IWRM)	107
4.1	A Theoretical Analysis of Mainstreaming Adaptation in the Development Process	108
4.1.1	Aligning Climate Change Adaptation with Sustainable Development	108
4.1.2	Justifying the Legal Method of Adaptation Mainstreaming	112
4.1.3	Examining the Status of Adaptation Mainstreaming in China's Water Management	116
4.2	Identifying Legal Challenges of Mainstreaming Adaptation in the IWRM	118
4.2.1	Challenges to Water Laws	119
4.2.2	Challenges to Water Institutional Framework	126
4.2.3	Challenges to Extant Public Participation Mechanism.	130
4.2.4	Challenges to the Capacity of IWRM in Managing Adaptation Issues	139
4.3	Analyzing the Potential to Mainstream Climate Change Adaptation in the IWRM	141
4.3.1	Bridging the Gap Between Stationarity and Uncertainty.	144
4.3.2	Integrating an Integrated Thinking with Locality-Based Actions	146
4.3.3	Developing Collaborative Mechanisms Between Various Levels of Government	148
4.3.4	Understanding the Climate Change Threats to Water Security	149
4.3.5	Identifying the Potential of IWRM in Mainstreaming Adaptation	150

4.4	Conclusion	153

5	Setting the Legal Enabling Environment for Adaptation	
	Mainstreaming in the IWRM	163
5.1	Rethinking the Principle of Sustainable Development	165
5.1.1	Reviewing the Principle of Sustainable Development for Adaptation.	165
5.1.2	Developing the Principle of Sustainable Development in the Adaptation Mainstreaming Process	168
5.2	Institutionalizing the Precautionary Principle	170
5.2.1	Understanding the Precautionary Principle in the Context of Climate Change Adaptation	171
5.2.2	The Application of the Precautionary Principle in China.	175
5.2.3	Applying the Precautionary Principle in the Adaptation Mainstreaming Process.	176
5.3	Advancing the Principle of Public Participation	180
5.3.1	Shifting the Role of the Public in the Decision-Making Process	180
5.3.2	Improving Public Access to Climate Change Information.	182
5.3.3	Recognizing the Role of NGOs.	189
5.3.4	Developing Community-Based Participation	191
5.4	Developing a Principle of Social Justice	194
5.4.1	Understanding the Social Justice Concern of Climate Change	195
5.4.2	Analyzing the Social Justice Implication of Adaptation	196
5.4.3	Applying the Social Justice Principle for Adaptation Mainstreaming in the IWRM	197
5.5	Developing Resilient Institutional Settings	201
5.5.1	Rules of Developing Resilient Institutional Settings	201
5.5.2	Increasing Local Government's Role in the Adaptation Mainstreaming Process.	203
5.5.3	Engaging Environmental Agencies in the Adaptation Mainstreaming Process.	209
5.5.4	Increasing the RBCs' Institutional Adaptive Capacity.	211
5.6	Conclusion	213

6 Recommendations for Mainstreaming Climate Change Adaptation in China's IWRM—Examples of Two Key Entry Points	223
6.1 Key Entry Point One: Mainstreaming Adaptation in Water Planning	225
6.1.1 China's Concerns on Integrating Climate Change Impacts with Water Planning	227
6.1.2 Developing Adaptive Water Management for Water Planning	229
6.1.3 Identifying the Entry Points of Mainstreaming Adaptation in the IWRM Planning Process	233
6.2 Key Entry Point Two: Mainstreaming Adaptation in Water-Related Environmental Impact Assessment (EIA)	237
6.2.1 EIA: A Preventative Approach to Protect the Environment from Climatic Harms	239
6.2.2 Identifying the Difficulties of Mainstreaming Adaptation in the EIA	241
6.2.3 Approaches of Mainstreaming Adaptation in the EIA	243
6.2.4 Difficulties and Opportunities of Implementing Adaptation Mainstreaming in the EIA	254
6.2.5 Concluding Remarks	257
References	258
7 Final Conclusion and the Way Forward	263
