## Contents

### Part I Introduction

<b>Responding to New Psychoactive Substances in the European Union: Early Warning, Risk Assessment, and Control Measures . . . . .</b>	<b>3</b>
Michael Evans-Brown and Roumen Sedefov	
<b>Emergence, Diversity, and Control of New Psychoactive Substances: A Global Perspective . . . . .</b>	<b>51</b>
Justice N. A. Tetey, Conor Crean, Susan C. Ifeagwu, and Martin Raithelhuber	
<b>Self-Experiments with Psychoactive Substances: A Historical Perspective . . . . .</b>	<b>69</b>
Torsten Passie and Simon D. Brandt	

### Part II Pharmacology

<b>Neuropharmacology of Synthetic Cathinones . . . . .</b>	<b>113</b>
Michael H. Baumann, Hailey M. Walters, Marco Niello, and Harald H. Sitte	
<b>Pharmacology of MDMA- and Amphetamine-Like New Psychoactive Substances . . . . .</b>	<b>143</b>
Linda D. Simmler and Matthias E. Liechti	
<b>The Chemistry and Pharmacology of Synthetic Cannabinoid Receptor Agonists as New Psychoactive Substances: Origins . . . . .</b>	<b>165</b>
Samuel D. Banister and Mark Connor	
<b>The Chemistry and Pharmacology of Synthetic Cannabinoid Receptor Agonist New Psychoactive Substances: Evolution . . . . .</b>	<b>191</b>
Samuel D. Banister and Mark Connor	
<b>Serotonergic Psychedelics: Experimental Approaches for Assessing Mechanisms of Action . . . . .</b>	<b>227</b>
Clinton E. Canal	

---

<b>Phencyclidine-Based New Psychoactive Substances . . . . .</b>	<b>261</b>
Jason Wallach and Simon D. Brandt	
<b>1,2-Diarylethylamine- and Ketamine-Based New Psychoactive Substances . . . . .</b>	<b>305</b>
Jason Wallach and Simon D. Brandt	
<b>Synthetic Opioids . . . . .</b>	<b>353</b>
Patrick M. Beardsley and Yan Zhang	
<b>Designer Benzodiazepines: Another Class of New Psychoactive Substances . . . . .</b>	<b>383</b>
Bjoern Moosmann and Volker Auwärter	
<b>Part III Clinical, Forensic, and Analytical Toxicology</b>	
<b>Bioanalytical Methods for New Psychoactive Substances . . . . .</b>	<b>413</b>
Lea Wagmann and Hans H. Maurer	
<b>Toxicokinetics of NPS: Update 2017 . . . . .</b>	<b>441</b>
Markus R. Meyer	
<b>Epidemiology of NPS Based Confirmed Overdose Cases: The STRIDA Project . . . . .</b>	<b>461</b>
Anders Helander and Matilda Bäckberg	
<b>Patterns of Acute Toxicity Associated with New Psychoactive Substances . . . . .</b>	<b>475</b>
Simon L. Hill and Paul I. Dargan	
<b>Fatal Poisonings Associated with New Psychoactive Substances . . . . .</b>	<b>495</b>
Robert Kronstrand, Davide Guerrieri, Svante Vikingsson, Ariane Wohlfarth, and Henrik Gréen	
<b>Wastewater Analysis for Community-Wide Drugs Use Assessment . . . . .</b>	<b>543</b>
Christoph Ort, Lubertus Bijlsma, Sara Castiglioni, Adrian Covaci, Pim de Voogt, Erik Emke, Félix Hernández, Malcolm Reid, Alexander L. N. van Nuijs, Kevin V. Thomas, and Barbara Kasprzyk-Hordern
