Authors xvii
List of Figures xix
List of Tables xxiii
List of Credits xxv
List of Abbreviations xxvii

1 History of DNA-Based Human Identification in Forensic Science 1

1.1 Introduction 1
1.2 Application of DNA Sequencing to Human DNA 1
1.3 History of DNA Typing 2
1.4 Next Generation Sequencing for Forensic DNA Typing 8
1.5 Conclusion 10
Questions 10
References 11

2 History of Sequencing for Human DNA Typing 13

2.1 Introduction 13
2.2 Common Chemistries Used in Sequencing Applications 13
2.2.1 Chain Termination Sequencing 13
2.2.2 Pyrosequencing 14
2.2.3 Sequencing by Ligation 16
2.3 Detection Techniques 17
2.3.1 Fluorescence 17
2.3.2 Pyrosequencing 19
2.3.3 Ion Detection 19
2.4 Sequencing Platforms 19
2.4.1 First-Generation Sequencing Techniques 19
2.4.1.1 Sanger Sequencing 19
2.4.1.2 SNaPShot Sequencing 20
2.4.1.3 Pyrosequencing 21

2.5 Massively Parallel Sequencing 23
2.5.1 Reversible Chain Termination MPS Platforms 23
2.5.2 Ion Detection Platforms 23
2.5.3 Sequencing by Ligation Platforms 24
2.5.4 Single Base Extension Platforms 25
2.5.5 Third-Generation Platforms 25
2.6 NGS Instruments Adopted for Forensic Science 25
Questions 28
References 28

3 Sample Preparation, Standards, and Library Preparation for Next Generation Sequencing 31

3.1 Overview of the NGS Sample Preparation Process 31
3.2 Sample Handling and Processing 31
3.3 DNA Extraction 32
3.4 DNA Quantitation 34
3.5 Library Preparation 35
3.6 Library Purification and Normalization 39
3.7 Multiplexing and Denaturation 41
Questions 42
References 42

4 Performing Next Generation Sequencing 47

4.1 Performing Next Generation Sequencing 47
4.2 Verogen MiSeq FGx® Sequencing 47
4.3 ThermoFisher Ion Torrent™ and Ion PGM Sequencing 53
4.4 The Next Step 54
Questions 54
References 55

5 Next Generation Sequencing Data Analysis and Interpretation 57

5.1 NGS Data Analysis 57
5.2 Verogen Universal Analysis Software 58
5.3 ThermoFisher Converge Software 69
5.4 Phenotype Analysis Using the Erasmus Server 74
5.5 Other Sequence Analysis Software 77
5.6 Additional Tools for Mixture Interpretation 78
5.7 Other NGS Sequence Data Analysis Tools 79
5.8 NGS Validation and Applications 80
Questions 83
References 83

6 Next Generation Sequencing Troubleshooting 87

6.1 Troubleshooting NGS Sequencing 87
6.2 Troubleshooting MiSeq FGx Instrument Failure 87
6.3 Troubleshooting MiSeq FGx Run Failure 89
6.4 Troubleshooting Ion Series Run Failure 92
Questions 94
References 94

7 Mitochondrial DNA Typing Using Next Generation Sequencing 95

7.1 Introduction to Mitochondrial DNA Typing 95
7.2 The Sequence of the Mitochondrial Chromosome 96
7.3 Mitochondrial DNA Typing Methods 98
7.4 Mitochondrial DNA Typing Using Next Generation Sequencing 98
7.5 Mitochondrial Sequence Data Interpretation and Reporting 102
7.6 Recent Reports of Mitotyping Using NGS for Forensic Applications 107
7.7 Mitochondrial Sequence Data and Databases 108
Questions 109
References 109

8 Microbial Applications of Next Generation Sequencing for Forensic Investigations 117

8.1 Introduction to Microbial DNA Profiling 117
8.2 Why NGS? 118
8.3 The Human Microbiome Project 118
8.4 Sampling and Processing 118
8.5 NGS Methodology in Microbial Forensics 119
8.6 Results from the Human Microbiome Project 120
8.7 HMP Applications for Forensic Science 121
8.8 NGS Applications in Geolocation, Autopsy, PMI, and Lifestyle Analysis 125
8.9 Bioinformatic Approaches and Tools 126
8.10 Bioforensics and Biosurveillance 127
8.11 Infectious Disease Diagnostics 128
8.12 NGS Applications in Archeology 129
8.13 Summary of NGS Microbial Sequencing Applications in Forensic Investigation 129
Questions 130
References 130

9 Body Fluid Analysis Using Next Generation Sequencing 137

9.1 Introduction 137
9.2 Epigenetic-Based Tissue Source Attribution 137
9.3 mRNA-Based Tissue Source Attribution 139
9.4 MicroRNA Analysis 140
9.5 The Future of Body Fluid Assays 141
Questions 141
References 142

10 Conclusions and Future Outlook of Next Generation Sequencing in Forensic Science 145

10.1 NGS Is Here 145
10.2 Why NGS? 146
10.3 Ongoing Challenges of Adopting NGS for Forensic Investigations 147
10.4 Early Successes of NGS in Forensic Cases 152
10.5 Summary 154
Questions 154
References 154
