Preface	xv
Acknowledgments	xix
About the Authors	xxi
1 Introduction	1
ERICA J. ARMSTRONG	
Drowning: A Diagnosis of Exclusion	1
Drowning Statistics and Epidemiology	4
The Drowning Process	5
Respiratory (Pulmonary) Physiology	5
Pathophysiological Effects of Drowning	9
The Process of Drowning	10
Freshwater vs. Saltwater Drowning	12
“Dry Drowning”	13
Drowning Tests	14
Cold-Water-Related Deaths	16
Warm-Water-Related Deaths	17
Position of Body in Water after Drowning	18
Waterborne Illness	19
Importance of a Good Scene Investigation	20
The Role of the Coroner/Medical Examiner in Medicolegal Death Investigation	21
Reporting a Death to the Coroner or Medical Examiner: General Information and Requirements	23
References	26
2 Investigative Duties on Scene	29
KEVIN L. ERSKINE	
Securing the Scene	29
Determining Scene Boundaries	30
Documenting the Scene	30
Search for Evidence	32
Unmanned Aerial Vehicles (UAVs or drones)	34
Body Search Missions	37
Body Search Operations Checklist	38
Challenges of Drone Use for Body Searches	38
Coordinating with Ground Teams	39

Loc 8 Image Scanning Software	40
Thermal Imaging	41
Thermal Imaging Limitations	41
Thermal Imaging for Drones	41
Body Decomposition Heat Signatures	41
Decomposing Vegetation Heat Signatures	42
Mapping Missions for SAR	43
Thermal Vision Cameras for Drones	43
Drone Models	44
DJI Inspire Quadcopter	44
DJI Matrice 200 Quadcopter	44
Parrot Bebop Pro Thermal Quadcopter	45
DJI Mavic Air	45
Grid Searches	46
Drone Laws	48
Underwater Drones	48
Underwater Search Techniques	50
Search Patterns for Divers	50
Diver-Held Sonar	54
Side-Scan Sonar	58
Kongsberg Sonar	60
K-9-Aided Searches	63
Evidence Recovery	64
Types of Evidence	65
Latent Prints from Submerged Evidence	65
Handgun Evidence	66
Tape	67
Weapon Recovery	67
Dive Team Equipment	68
Significance of the Absence or Presence of Clothing or Other Coverings on the Body	71
Body Composition	71
Water Temperature	71
Current or Tidal Action	71
Type of Clothing	72
Manner of Water Entry	72
Retardation of Decomposition	72
Preservation of Evidence	72
Infant Deaths	72
Aid in Recovery or Identification	73
Investigative Characteristics of Selected Scenes	73
Bodies in Submerged Vehicles	73
Bucket Drowning	77
Scuba Fatalities	78
Dive Buddy Interview	79
Recovery Diver Interview	80
Location and Recovery of the Diver	80

Equipment Preservation and Evaluation	81
Air Quality Standards for Scuba Tanks	81
Sampling Scuba Cylinder Air	81
Autopsy	84
Formulating Conclusions	84
Common Factors of Scuba Fatalities	85
Scuba Fatality Reports	85
Suicidal Drowning	86
Pool Drowning	87
Hotel, School, and Recreation Center Pools	89
Lighting	89
Noise	89
Surface Ripple	90
False Sense of Security	90
Unusual Hours of Operation	90
High Concentration of Swimmers	90
Interview of Lifeguard (If One Was on Duty)	90
Investigative Techniques	91
Bathtub and Hot Tub Drowning	92
Moving Water Drowning	96
Current Speed	97
Body Drop Rates	97
Homicidal Drowning	98
Erotic Drowning	98
Drowning of the Elderly	101
Boating and Personal Watercraft (PWC) Accidents	103
Determining the Location of the Crash	104
Light and Lamp Examination	105
Inspection of PFDs	111
Cold Water Immersion	113
Alcohol	115
Drug Use, to Include Illegal/Illicit Drugs and Prescription Drugs for Sedation, Anxiety, Sleep, Pain, etc.	117
Causes of Injury to PWC Operators	117
Vessel Examination	118
Common Causes of Carbon Monoxide Poisoning While Boating	119
Mammalian Dive Reflex/Cold Water Near Drowning	120
Environmental Considerations	121
Natural Hydraulics	124
References	130
3 On-Scene Body Assessment	133
KEVIN L. ERSKINE AND ERICA J. ARMSTRONG	
Introduction	133
Postmortem Wandering	133
General Body Assessment	134

Ocular Changes	135
Foam Column/Foam Cone	139
Rigor Mortis (Rigidity)	139
Livor Mortis (Lividity)	143
Lividity vs. Bruising (Contusion)	144
Algor Mortis	144
Physical Wounding of the Body	145
Anthropophagy	147
Maggots	148
Decomposition	149
Fingerprinting the Deceased in Water-Related Deaths	152
Fingerprinting Decomposed Human Remains	154
Live Scan	155
Casting Mediums	155
References	155

4 Case Investigation: Obtaining Decedent, Witness, Suspect, and First Responder Information 157

KEVIN L. ERSKINE

Parabon Snapshot	157
Types of Analysis Provided	157
How It Works	157
Genetic Genealogy	159
Stages of Snapshot Reconstruction (See Figure 4.2)	159
Benefits of Snapshot Facial Reconstruction	160
Case Study: Brittani Marcell Assault	161
Carbon-14 Dating to Determine Age and Year of Death	161
Decedent Information	162
Witness Interviewing	166
Suspect Interviewing	168
Second Interview	170
Determining Accuracy of Statements Obtained at Scene	170
Indicators of Deception	171
Unfinished Business	172
“I Can’t”	172
The Hypothetically Structured Phrase	172
Hard Question	172
Objection	173
Nonreflective Denial of Knowledge	173
Maintenance of Dignity	173
The Interrogatory Evasive Response	173
Projection	173
No Proof	173
Accusatory	174

The Answer Is ...	174
Rambling Dissertation	174
The Answer Does Not Equal the Question	174
Denial of Presence	174
Speech Errors	174
Nonverbal Communication	175
Physical Gestures	175
Why People Lie and How They Attempt to Conceal It	176
Child Witnesses	176
Interviews of Rescue and Recovery Personnel	177
Case Investigation Assistance	177
CODIS-Combined DNA Index System	177
VIDOCQ Society	178
References	179
5 Pretrial Preparation for the Field Investigator	181
KEVIN L. ERSKINE	
Incident Report	181
Chain of Evidence and Exhibits	181
Pretrial Interviews	183
Eyewitness Testimony vs. Circumstantial Evidence	183
Child Witnesses	184
Expert Witnesses	185
Video and Audio Recordings	186
Testifying in Court: Credibility, Appearance, and Demeanor	186
Criminal vs. Civil Proceedings	187
Wrongful Death Lawsuit Filed against Rafting Company	191
References	193
6 Medicolegal Investigation of Deaths: Initial Processing	195
ERICA J. ARMSTRONG	
References	202
7 The Medicolegal Autopsy	205
ERICA J. ARMSTRONG	
Introduction	205
External Examination: General Information	207
Description of External Findings	213
Injuries	217
Blunt Force Injury	219
Sharp Force Injury	226
Firearm Injury	230
Thermal Injury	233
Internal Examination	237

	Reporting	246
	Cause of Death, Manner of Death, and the Death Certificate	247
	Application of Medicine and Pathology to Law: The Forensic Pathologist as an Expert Witness	248
	References	250
8	Asphyxia	251
	ERICA J. ARMSTRONG	
	Asphyxia: General Information	251
	Suffocation	252
	Strangulation	254
	Gas-Related or Chemical Asphyxia	260
	Water-Related Deaths due to Atmospheric Pressure Changes	263
	References	264
9	The Forensic Pathological Aspects of Deaths Due to Drowning and Bodies Recovered from Fluid Environments	267
	ERICA J. ARMSTRONG	
	Introduction	267
	Water-Related Deaths: Initial Processing	269
	The Autopsy and the Diagnosis of Drowning and Other Water-Related Injury	271
	External Examination	272
	Internal Examination	283
	Infant/Fetal Toilet Deaths	293
	References	297
10	The Forensic Toxicological Aspects of Deaths Due to Drowning and Bodies Recovered from Fluid Environments	301
	ERICA J. ARMSTRONG	
	Introduction	301
	Ethanol	305
	Psychiatric Medications	309
	Illicit Drugs and Medications	312
	Carbon Monoxide	316
	References	317
11	Water-Related Deaths by Manner	319
	ERICA J. ARMSTRONG	
	Homicidal Water-Related Deaths	319
	Suicidal Water-Related Deaths	324
	Accidental Water-Related Deaths	327
	Natural Water-Related Deaths	333
	Undetermined Water-Related Deaths	338

Contents	xiii
References	341
12 Personnel Training	343
KEVIN L. ERSKINE	
Water-Proofing the Patrol Officer	343
Introduction	343
Legal Issue	343
Steps to a Safe Encounter	343
Awareness	344
Prevention	344
Recovery (Self-Rescue)	345
In-water Self-Defense	348
Self-Defense	350
Rescue of Others	354
Rescue from Others	355
Diver Training	355
Introduction	355
Preparing for a Dive Deployment	355
Search Preparation	360
Rescue Training	364
Evidence and Body Recovery	365
Drown-Proofing Divers	367
Bed Sheets	367
Port Hole	368
Devil's Triangle	368
Panic and Stress	368
Equipment Exchange	369
Deep Donning of Gear	369
Mask and Regulator Rip Off	370
AGA/Full Face Mask Rip Off	370
Dropping Weights	370
Underwater Puzzle and Pipe Assembly	370
Cross-training	371
References	371
Appendix A	373
Appendix B: Body Drop Rate Chart	377
Appendix C: Checklists and Supplements	379
Appendix D: Sample Autopsy Report	389
Appendix E: You Make the Call	395
Appendix F	399
Index	401
