1. Climate change and forests: from the Noordwijk Declaration to REDD	1
1.1 <i>Introduction</i>	<i>1</i>
1.2 <i>Climate change</i>	<i>3</i>
1.2.1 The physical problem	<i>3</i>
1.2.2 The governance process	<i>3</i>
1.2.3 The key political challenges	<i>4</i>
1.3 <i>Forests</i>	<i>7</i>
1.3.1 Current status	<i>7</i>
1.3.2 Deforestation and degradation	<i>9</i>
1.3.3 The governance process	<i>9</i>
1.3.4 The key political challenges	<i>12</i>
1.4 <i>Climate change and forests</i>	<i>13</i>
1.5 <i>The research questions and the analytical framework</i>	<i>16</i>
1.6 <i>Inferences</i>	<i>20</i>
2. The forest transition, the drivers of deforestation and governance approaches	25
2.1 <i>Introduction</i>	<i>25</i>
2.2 <i>The forest transition</i>	<i>25</i>
2.3 <i>The drivers of deforestation</i>	<i>29</i>

vi *Contents*

2.3.1	Generic drivers and forest transitions	29
2.3.2	Drivers of deforestation in different regions	30
2.4	<i>Instruments of forest governance</i>	33
2.4.1	Introduction	33
2.4.2	Forest transitions, drivers and forest policy	33
2.4.3	Classifying governance instruments	34
2.4.4	Regulatory instruments	34
2.4.5	Economic and market instruments	38
2.4.6	Suasive, information and research instruments	40
2.4.7	Management measures	40
2.4.8	Forest instruments and drivers	41
2.5	<i>Inferences</i>	44
3.	Global forest governance	52
3.1	<i>Introduction</i>	52
3.2	<i>Institutions</i>	52
3.2.1	A brief history	52
3.2.2	Global institutions with a forest-focused mandate	54
3.2.3	Global institutions with a forest-related mandate and/or an indirect impact on forest services	57
3.2.4	Global governance institutions and ecosystem services	60
3.2.5	Regional institutions with a forest-focused mandate	61
3.2.6	Regional institutions with a forest-related mandate and/or an indirect impact on forest services	62
3.2.7	Extra-territorial impacts of national governance	63
3.3	<i>Key principles and concepts in international forest governance</i>	63
3.3.1	Key principles	64
3.3.2	Key concepts	65
3.4	<i>Instruments of international forest governance</i>	65
3.4.1	Regulatory instruments	66
3.4.2	Economic instruments	66
3.4.3	Suasive instruments	68
3.5	<i>Inferences</i>	70
4.	The emergence of REDD on the global policy agenda	77
4.1	<i>Introduction</i>	77
4.2	<i>Forests under the UN Climate Convention and the Kyoto Protocol</i>	77
4.2.1	Early days: the forest-climate pre-Kyoto debate	77
4.2.2	Forests in the Kyoto Protocol – ‘integrating forest commitments into the climate regime’	78

4.3	<i>The emergence of REDD</i>	80
4.3.1	REDD in the UNFCCC negotiations	80
4.3.2	REDD developments outside the UNFCCC	81
4.4	<i>Key challenges for REDD at the international level: designing an effective, robust mechanism</i>	84
4.4.1	The right scale for REDD	84
4.4.2	Reference levels	84
4.4.3	Financing REDD	85
4.4.4	Monitoring, reporting and verification	86
4.4.5	Permanence, additionality and leakage	86
4.4.6	Safeguards	87
4.5	<i>Key challenges for REDD at the domestic level: implementation and benefit-sharing</i>	88
4.5.1	The impact of REDD to date	88
4.5.2	Challenges of good governance, tenure and internal benefit-sharing	89
4.5.3	Risks and implications of commodifying forest carbon	91
4.6	<i>Inferences</i>	92
5.	Case study: Vietnam	99
5.1	<i>Introduction</i>	99
5.2	<i>Driving forces of deforestation and forest degradation</i>	100
5.3	<i>The forest policy context</i>	101
5.3.1	The organizational framework	101
5.3.2	The evolution of forest policy	103
5.3.3	The influence of international treaties and bodies	105
5.4	<i>Key forest policy instruments and their analysis</i>	105
5.5	<i>Implications for REDD</i>	109
5.6	<i>Inferences</i>	112
6.	Case study: Indonesia	121
6.1	<i>Introduction</i>	121
6.2	<i>Driving forces of deforestation and forest degradation</i>	122
6.3	<i>The forest policy context</i>	124
6.3.1	The organizational framework	124
6.3.2	The evolution of forest policy	125
6.3.3	The influence of international treaties and bodies	125
6.4	<i>Key forest policy instruments and their analysis</i>	126
6.5	<i>Implications for REDD</i>	133

6.6	<i>Inferences</i>	135
7	Case study: Cameroon	143
7.1	<i>Introduction</i>	143
7.2	<i>Driving forces of deforestation and forest degradation</i>	144
7.3	<i>Key policies and instruments</i>	146
7.3.1	The organizational framework	146
7.3.2	The evolution of forest policy	147
7.3.3	The influence of international treaties and bodies	147
7.4	<i>Key forest policy instruments and their analysis</i>	148
7.5	<i>Implications for REDD</i>	154
7.6	<i>Inferences</i>	157
8.	Case study: Peru	163
8.1	<i>Introduction</i>	163
8.2	<i>Driving forces of deforestation and forest degradation</i>	164
8.3	<i>The forest policy context</i>	167
8.3.1	The organizational framework	167
8.3.2	The evolution of forest policy	168
8.3.3	The influence of international treaties and bodies	169
8.4	<i>Key forest policy instruments and their analysis</i>	169
8.5	<i>Implications for REDD</i>	176
8.6	<i>Inferences</i>	179
9.	Comparative analysis of Vietnam, Indonesia, Cameroon and Peru	185
9.1	<i>Introduction</i>	185
9.2	<i>Driving forces of deforestation and forest degradation</i>	185
9.2.1	Direct drivers of deforestation and forest degradation	185
9.2.2	Underlying drivers of deforestation and forest degradation	187
9.3	<i>Forest policy instruments assessed</i>	187
9.4	<i>Equity issues: impact on access and allocation</i>	194
9.5	<i>Implications for REDD</i>	198
9.6	<i>Conclusion</i>	201
10.	REDD policies, global food, fibre and timber markets, and 'leakage'	207
10.1	<i>Introduction</i>	207

10.2	<i>Methods and data</i>	209
10.3	<i>A scenario of future deforestation</i>	210
10.3.1	Introduction	210
10.3.2	Growth of population and income	211
10.3.3	Demand for food and timber	211
10.3.4	Demand for biofuels	211
10.3.5	Future demand and supply of land	212
10.3.6	Baseline scenario of land-use change and deforestation	213
10.4	<i>Economic effects of REDD-induced forest conservation</i>	214
10.4.1	Introduction	214
10.4.2	A forest conservation policy scenario	215
10.4.3	Global food and timber markets	215
10.4.4	Economy-wide effects and environmental benefits	216
10.4.5	Inferences	219
10.5	<i>Leakage</i>	219
10.5.1	Introduction	219
10.5.2	Leakage simulations	221
10.5.3	Inferences	224
10.6	<i>Inferences</i>	224
11.	The future of forests	229
11.1	<i>Global forest governance: a twenty-first-century myth of Sisyphus?</i>	229
11.2	<i>'Glocal' forest governance</i>	230
11.2.1	Evolutionary phases in forest governance	230
11.2.2	The politics of scale: Should there be 'glocal' forest governance?	231
11.2.3	Current global forest governance	238
11.3	<i>National forest governance</i>	241
11.3.1	The forest transition	241
11.3.2	Forest transitions, drivers and policies	243
11.3.3	National forest policies	244
11.4	<i>REDD revisited</i>	245
11.4.1	Practical options for implementing REDD in countries	245
11.4.2	Buying time or a REDD herring	247
11.4.3	A North–South analysis	250
11.4.4	Going beyond REDD: the challenge of mainstreaming forests	252
11.5	<i>Conclusions</i>	253
